PROJECT BRIEF

PROTECT is a **Public Private Partnership (PPP)** project which addresses the need to improve fire and structural safety of the buildings and to reduce the risks of chemical hazards in Garment and Footwear (G&F) factories. The ultimate goal of the project is to implement the international standard OHSAS 18001 in 10 selected G&F factories to provide for a safer and healthier workplace. This initiative will in return enhance the productivity of the workers and improve the product quality, aiming to lead to a wider adaptation of best business practices within the industry. The project, which is co-financed by KFW DEG and SGS, starts in 2014 and completes by end of 2016.

ACTIVITIES

DEG, a member of KFW Bankengruppe (KFW banking group), finances investments of private companies in developing and transition countries. As one of Europe's largest development finance institutions. It promotes private business structures to contribute to sustainable economic growth and improved living conditions.

SGS is the world's leading inspection, verification, testing and certification company. It is recognised as the global benchmark for quality and integrity. SGS core abilities contribute to build trust between people, companies and governments and its services enable customers to operate in a more sustainable manner by improving quality and productivity, reducing risk, verifying compliance and increasing speed to market.

ASSIST is an international non-profit organization focused on capacity-building. It seeks to promote sustainable practices to address social problems in the developing world, with focus on Asia and Africa. Since 2003, ASSIST has implemented over 48 projects funded by multi-lateral donors such as European Union, USAID, UNEP, UNIDO, KFW DEG, GLZ, etc.
